

## SAP ОБУЧЕНИЕ

### ПРИМЕРНИ ВЪПРОСИ: P\_ADM\_SYS\_70

Забележка: Примерните въпроси са изготвени единствено за целите на вашата самоподготовка и не са включени в реалните изпити за сертификация. Справянето с тези въпроси не ви гарантира успешното преминаване на изпита. Същинският изпит обхваща по-широк кръг от теми, затова преди явяване на изпит за сертификация се запознайте с всички тематични области, посочени в описанието на изпита.

SAP Certified Technology Professional – Platform Technology with SAP NetWeaver 7.0

#### Въпроси:

1. The shadow system is installed during the upgrade to SAP ECC 6.0. Which step takes place outside of the shadow system?

Please choose the correct answer.

a)	<input type="radio"/>	Modification Adjustment Dictionary (transaction SPDD)
b)	<input type="radio"/>	Table activation (ACT_700)
c)	<input type="radio"/>	Table conversion (PARCONV)
d)	<input type="radio"/>	Table distribution (PARDIST_SHD)

2. You want to import the latest SP Stack into your central development system of an SAP NetWeaver Development Infrastructure (NWDI) track. However, the Java Support Package Manager (JSPM) does not recognize that your runtime system is under NWDI control.

What is the reason?

Please choose the correct answer.

a)	<input type="radio"/>	You did not select the Integrate runtime system into JSPM scenario checkbox in the Change Management Service (CMS) transport studio.
b)	<input type="radio"/>	You did not start JSPM in modify mode.
c)	<input type="radio"/>	You selected to ship only SC archives without sources in the NWDI track definition of the Change Management Service (CMS).
d)	<input type="radio"/>	You did not apply the prerequisite support package level for JSPM.

3. Which are advantages of multiple local SAP NetWeaver Portal systems (no Federated Portal Network) versus one shared central SAP NetWeaver Portal system?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	Support different regional zones
b)	<input type="radio"/>	Provide different Service Level Agreements
c)	<input type="radio"/>	Support multiple languages
d)	<input type="radio"/>	Enable a strong governance process

4. You need to set up an authorization concept for the SAP NetWeaver Development Infrastructure (NWDI). Which authorization features are available for the different NWDI components?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	Component Build Service (CBS) offers UME-based buildspace-specific authorizations.
b)	<input type="radio"/>	The System Landscape Directory (SLD) uses both security roles and UME actions.
c)	<input type="radio"/>	Change Management Service (CMS) offers the option to specify track-specific authorizations.
d)	<input type="radio"/>	The Design Time Repository (DTR) offers UME actions that allow you to work on specific DTR workspaces only.

5. A company uses Change Request Management with SAP Solution Manager to document and transport changes. After a successful logon to the SAP Solution Manager system, a new developer is not able to process a change request on the SAP Solution Manager system.

What is a possible reason for this?

Please choose the correct answer.

a)	<input type="radio"/>	The user ID of the new developer has not been assigned to a business partner in the Employee role.
b)	<input type="radio"/>	The developer is not logged on to the development system.
c)	<input type="radio"/>	The developer does not have a valid developer key in the SAP Solution Manager system.
d)	<input type="radio"/>	The development system is located in a transport domain different from the SAP Solution Manager system.

6. A customer runs an SAP system based on SAP NetWeaver 7.0 with several instances. Which single points of failure (SPOF) do you have to take into consideration for the high-availability layout?

Note: There are 3 correct answers to this question.

a)	<input type="radio"/>	JAVA Central Services (SCS)
b)	<input type="radio"/>	SAP Operating System Collector (SAPOSCOL)
c)	<input type="radio"/>	Internet Communication Manager (ICM)
d)	<input type="radio"/>	ABAP Central Services (ASCS)
e)	<input type="radio"/>	Relational database management system (RDBMS)

7. What is the main idea of SAP NetWeaver Information Lifecycle Management (ILM)?

Please choose the correct answer.

a)	<input type="radio"/>	ILM replaces data archiving.
b)	<input type="radio"/>	ILM complements data archiving with retention management and retention warehousing.
c)	<input type="radio"/>	ILM is an external storage system delivered by SAP.
d)	<input type="radio"/>	ILM is the new tool to archive SAP NetWeaver Business Warehouse objects.

8. Which remote services are covered by SAP Standard Support?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	SAP System Landscape Optimization
b)	<input type="radio"/>	SAP GoingLive Functional Upgrade Check
c)	<input type="radio"/>	SAP OS/DB Migration Check
d)	<input type="radio"/>	SAP Remote Upgrade Service

9. Which of the following support services can you directly access via the SAP Service Marketplace (<http://service.sap.com>)?

Please choose the correct answer.

a)	<input type="radio"/>	Download SAP upgrade guides
b)	<input type="radio"/>	Execute the SAP remote installation service
c)	<input type="radio"/>	Online conferencing with experts on demand
d)	<input type="radio"/>	System access to SAP hosted solutions

10. The downtime of a SAP system is a crucial aspect within an upgrade project. What do you recommend to keep system downtime to a minimum?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	Use the latest service release for the upgrade.
b)	<input type="radio"/>	Use a powerful separate hardware for the shadow instance.
c)	<input type="radio"/>	Use the incremental conversion (ICNV) for large tables that need to be converted.
d)	<input type="radio"/>	Use the parallel processing option of R3load to speed up the import of the shadow repository.

### Отговори:

1 a) Incorrect	2 a) Correct	3 a) Correct	4 a) Incorrect	5 a) Correct
