

## SAP ОБУЧЕНИЕ

### ПРИМЕРНИ ВЪПРОСИ: P\_VPX\_70

Забележка: Примерните въпроси са изготвени единствено за целите на вашата самоподготовка и не са включени в реалните изпити за сертификация. Справянето с тези въпроси не ви гарантира успешното преминаване на изпита. Същинският изпит обхваща по-широк кръг от теми, затова преди явяване на изпит за сертификация се запознайте с всички тематични области, посочени в описанието на изпита.

SAP Certified Application Professional – Business Process Expert

#### Въпроси:

1. Your company's Enterprise Architecture (EA) Governance demands you to track triggers and state changes in the organization and how they affect business scenarios. Therefore, you decide to model Event Views according to the SAP Enterprise Architecture Framework (EAF).

Which of the following is a benefit of using an Event View in this scenario?

Please choose the correct answer.

a)	<input type="radio"/>	It measures the interaction between actors, processes, and functions.
b)	<input type="radio"/>	It explicitly identifies and stores triggers and process control steps to support regulatory compliance.
c)	<input type="radio"/>	It could be used to associate driver goals and objectives to events.
d)	<input type="radio"/>	It provides a chain of command of owners, events, and decision makers in the organization.

2. You are implementing the end-to-end scenario "Integrating Sourcing and Procurement". The "Change Purchase Order Approval Process" requires a composite application.

What information for the composite application should you ensure to document in a technical specification before you move to a Solution Operation?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	Composite technical details such as UI layout, composite process flow, business objects
b)	<input type="radio"/>	Test data
c)	<input type="radio"/>	Requirements for the Incident Management process
d)	<input type="radio"/>	Candidates for Service Operations

3. What benefit targets for implementing SAP solutions as part of Business Process Management (BPM) initiatives can be established using the SAP Value Lifecycle Manager (VLM)?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	Targets for the Net Present Value (NPV) for the SAP solutions implementations that are part of BPM initiatives.
b)	<input type="radio"/>	Targets for process-level improvements, as measured by performance indicators, to be achieved by BPM initiatives.
c)	<input type="radio"/>	Targets for total implementation costs for SAP solutions to be put in place as part of BPM

		initiatives.
d)	<input type="radio"/>	Targets for the total Cost of Ownership (TCO) of SAP solutions implemented as part of BPM initiatives.

4. What are some key activities you need to execute before setting up Process Communication?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	Define a modeling convention.
b)	<input type="radio"/>	Define a process communication strategy.
c)	<input type="radio"/>	Define a process management lifecycle methodology.
d)	<input type="radio"/>	Define the catalog of personas.

5. Monitoring KPIs with no link to the processes has limited impact on efficiency or customer satisfaction. Therefore, you are asked to provide some key requirements for the tool selection process.

Which key requirements would you recommend?

Note: There are 3 correct answers to this question.

a)	<input type="radio"/>	Assessment of the technical system application management demands
b)	<input type="radio"/>	Identification of concrete process weaknesses
c)	<input type="radio"/>	Support the assessment of business process optimization project success
d)	<input type="radio"/>	Proactive measurement of company goal attainment
e)	<input type="radio"/>	Identification of concrete system weaknesses

6. A customer runs a Business Process Management (BPM) practice. They are now considering using SAP NetWeaver BPM, which includes Business Rules Management (BRM).

What advantages of integrated BRM would you outline so they can improve their BPM practice?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	Provide the ability to encapsulate business rules as re-usable services.
b)	<input type="radio"/>	Provide the ability to manage business rules within BPM.
c)	<input type="radio"/>	Provide the ability to map business rules to Process Key Performance Indicators (KPI).
d)	<input type="radio"/>	Provide the ability to standardize and optimize business rules for operational processes.

7. For which of the following Performance Measurements can you use Solution Manager?

Note: There are 2 correct answers to this question.

a)	<input type="radio"/>	Due List Log Monitoring
b)	<input type="radio"/>	Throughput and Backlog Indicators
c)	<input type="radio"/>	Activity-level KPI
d)	<input type="radio"/>	SAP NetWeaver BPM process instance monitoring

## Отговори:

1 a) Incorrect	2 a) Correct	3 a) Correct	4 a) Incorrect	5 a) Incorrect
