## SAMPLE QUESTIONS: C\_TM\_80

SAP Certified Application Associate - Transportation Management with SAP TM 8.0 - [print view](#)

Disclaimer: These sample questions are for self-evaluation purposes only and do not appear on the actual certification exams. Answering the sample questions correctly is no guarantee that you will pass the certification exam. The certification exam covers a much broader spectrum of topics, so do make sure you have familiarized yourself with all topics listed in the exam competency areas before taking the certification exam.

### Questions

1. Products with different characteristics should not be loaded on to the same vehicle.  
Which incompatibility type is required to achieve this?

Please choose the correct answer.

a)	<input type="radio"/>	Freight Unit – Transshipment Location
b)	<input type="radio"/>	Freight Unit – Freight Unit
)	<input type="radio"/>	Freight Unit – Vehicle Resource
d)	<input type="radio"/>	Vehicle Resource – Vehicle Resource

2. Where can you activate Event Management integration?

Note: There are 3 correct answers to this question.

a)	<input type="radio"/>	In the freight order type
b)	<input type="radio"/>	In the freight agreement type
c)	<input type="radio"/>	In the standard equipment type
d)	<input type="radio"/>	In the freight unit type

3. You track events such as truck delays and breakdowns during the execution of a freight order.  
How are these events categorized in SAP Event Management?

Please choose the correct answer.

a)	<input type="radio"/>	As an overdue event
b)	<input type="radio"/>	As a regular event
c)	<input type="radio"/>	As an unexpected event
d)	<input type="radio"/>	As an unreported event

4. You are doing business with two carriers. Carrier A has a large fleet and a well-run back-office, carrier B is a driver/owner of a single vehicle.

What is a recommended communication setup in this situation?

Please choose the correct answer.

a)	<input type="radio"/>	Carrier A: via SMS Carrier B: via EDI
b)	<input type="radio"/>	Carrier A and B: via SMS
c)	<input type="radio"/>	Carrier A: via EDI Carrier B: via SMS
d)	<input type="radio"/>	Carrier A and B: via EDI

5. Which profiles can be part of the planning profile?

Note: There are 3 correct answers to this question.

a)	<input type="radio"/>	Optimizer settings
b)	<input type="radio"/>	Time-related selection attributes
c)	<input type="radio"/>	Selection profile for freight orders and freight bookings
d)	<input type="radio"/>	Geographical selection attributes
e)	<input type="radio"/>	Capacity selection settings

6. Your company ships both chlorine and ammonia. These products cannot be transported together on the same vehicle from a safety and regulatory perspective. Your company is using Environment, Health and Safety (EH&S).

How do you ensure that the products are not transported together?

Please choose the correct answer.

a)	<input type="radio"/>	Create freight units per product and merge the freight units manually during planning.
b)	<input type="radio"/>	Integrate TM with EH&S and perform dangerous goods checks during both freight unit creation and planning.
c)	<input type="radio"/>	Integrate TM with EH&S and use incompatibilities during carrier selection to select the best vehicle for the products.
d)	<input type="radio"/>	Print a text on the bill of lading telling the driver to load the products into different compartments.

7. You have not connected TM to a geographical information system (GIS).

How can you configure TM to approximate road distance and duration?

Note: There are 2 correct answers to this question?

Please choose the correct answer.

a)	<input type="radio"/>	In means of transport Customizing, set the average speed and distance factor, but do not set the GIS quality indicator.
b)	<input type="radio"/>	On the transportation lane, set the transportation distance, transportation duration, and control indicators "fix trsp. distance" and "fix trsp. duration".
c)	<input type="radio"/>	In the means of transport Customizing, set the low speed, medium speed, and high speed, and the GIS quality indicator.
d)	<input type="radio"/>	On the transportation lane, set the transportation distance, transportation duration, precision to "0100", but do not assign any means of transport.

8. Which master data objects do you define to describe recurring transports between two locations?

Please choose the correct answer.

a)	<input type="radio"/>	Schedule and transportation lane
b)	<input type="radio"/>	Departure calendar and calendar resource
c)	<input type="radio"/>	Transportation lane and calendar resource
d)	<input type="radio"/>	Schedule and departure calendar

9. You want to create an order-based transportation requirement type that supports:

- Analytics
- Creation of a successor business document

Which indicators must you set in Customizing to achieve this?

Note: There are 3 correct answers to this question.

a)	<input type="radio"/>	Automatic Freight Unit Building
b)	<input type="radio"/>	BW Relevance
c)	<input type="radio"/>	Enable Approval Workflow
d)	<input type="radio"/>	Track Changes

10. Which of the following are calculation resolution bases?

Note: There are 3 correct answers to this question.

a)	<input type="radio"/>	Container
b)	<input type="radio"/>	Stage
c)	<input type="radio"/>	Resource
d)	<input type="radio"/>	Root
e)	<input type="radio"/>	Location

11. The rate table used in a charge item differs depending on the situation.

What do you have to configure to be able to choose the appropriate rate table?

Please choose the correct answer.

a)	<input type="radio"/>	Freight unit building rules
b)	<input type="radio"/>	Charge calculation rules
c)	<input type="radio"/>	Freight unit building rule determination condition
d)	<input type="radio"/>	Settlement profile determination condition

## Solutions
