SAMPLE QUESTIONS: P_SM_70

SAP Certified Technology Professional – Solution Manager

Disclaimer: These sample questions are for self-evaluation purposes only and do not appear on the actual certification exams. Answering the sample questions correctly is no guarantee that you will pass the certification exam. The certification exam covers a much broader spectrum of topics, so do make sure you have familiarized yourself with all topics listed in the exam competency areas before taking the certification exam.

Questions

1. How does automatic system landscape data capture work?

Please choose the correct answer.

a)	<input type="radio"/>	System data is collected during system measurement and sent to SAP AG. SAP Solution Manager collects the data from SAP AG to update the system landscape.
